WILSON'S COMPOUND OF PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION, COUGHS COLDS ASTHMA BRONCHITES GENERAL DEBILITY AND ALL SCROFULOUS HUMORS

THE Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly that the taste of the Oil which causes nauseous to persons generally is entirely overcome so it can be taken by the most delicate female with pleasure. And as regards the benefit of the article over the clear oil the following case by Prof Stone is sufficient to convince the most skeptical. The young lady was twenty-four years of age.

Her disease was one of a most confirmed phthisic which had been expected to terminate in the course of a few months fatally. The upper part of both her lungs were filled with tubercles, and in some places were breaking down (softening). The case was evidently incurable. The treatment of Cod Liver Oil was then instituted but without marked improvement. The Lime preparation of Lime was then administered with the Oil and the result, as in the case of the latter, was soon apparent. The patient was speedily restored to health.

☞ Owing to the great reputation of this Compound for all the complaints the subscriber is obliged to add cited against using any except that manufactured by him, as he has the receipt in the United States for combining the Oil and Lime in a proper manner. There is no reason why your health purchase upon except that manufactured by

SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century relieving and facilitating the labor of men by machinery and other modern inventions, but female slavery has been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron* which will perhaps them, in a very great degree, from the excessive and fatiguing labor of *Ironing* besides being a great saving of time and expense. This Iron combines economy, convenience saving of labor and despatch, one cent's worth of dry charcoal supplies fuel for a whole days' constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters and Tailors Irons are constructed upon the same principle and possess equal superiority.

PROFESSOR ALEX C. BARRY'S

PRICOPHER ...S,

or Medicated Compound,

FOR beautifying, improving and preserving the Hair, curing coils burns scalds rheumatism and all irritation of the skin. A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement, but as the thousands who purchase use and approve of it have probably no idea of the enormous extent of the business done by Professor Barry, he gives herewith a plain statement of facts derived from his books and with them orders his earnest and hearty thanks to his innumerable patrons.

Professor Barry's accounts of sales for the year 1852, show that during that year about 9 000 bottles of his Pricopherous were disposed of, and that the cash product of the immense sale was nearly $100 000.

This plain unvarnished tale is a better commentary on the value of the article than any thing the inventor could say. If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy for cuts, bruises, burns, skin diseases, &c—it would not, of course be so universally in demand. The wealthy portion of the public would buy it at any price, but Professor Barry has reduced it to a figure so low that the poor can avail themselves of its benefits.

Sold in large bottles [price 25 cents] at wholesale and retail, at the manufactory and depot 137 Broadway, New York and by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c.

New Method of Cure!

B. F. HATCH, M. D,

Professor of Theory and Practice, Obstetrics Diseases of Women and Children in the New England College of Physicians and Surgeons,

Has discovered a new method by which he is able to treat

All Diseases peculiar to Females,

—AT HIS—

GENERAL WEAKNESS,

with unusual success, and a cure can be accomplished in much less time than any heretofore practiced by any physician in New England.

Dr H's method has never been equalled in point of PRACTICABILITY or SUCCESS, and how ever long standing the case may be or troubles efforts may have proved the patient may confidently expect relief. Hundreds of cases might be referred to which would amply justify the above assertion.

Consumption, Dyspepsia,

Diseases of the Spine Liver Heart Kidneys Larnyx Bowels Blood Skin all Nervous Difficulties Scrofula and Scrofulous Swellings Fever Sores, Hip Disease &c &c

are relieved in an incredible short space of time and with remedies which are in perfect harmony with the constitution.

This great improvement in the cure of disease establishes a new era in medical science and all who are in any way afflicted should avail themselves of its advantages.

We do not feel disposed to publish a long list of cures, for no man no matter how ill prepared for the profession but what can boast of effecting cures and procure certificates of recommendation from individuals but will give the opinion of editors who are competent to refer to the public.

Prof J R Buchanan in his Journal of Man says Dr Hatch is a bold but liberal reformer. He is a graduate of the Eclectic Medical Institution and is one of the most successful practitioners.

Dr H is one of the most intelligent Physicians and deserves liberal encouragement for his skill and rare disinterestedness.—*Christian Freeman*

The general reading of a work such as Prof H has published would result in much public good and we trust it may meet with a universal circulation.—*Boston Daily Bee*

TESTIMONIALS

The following certificate from Dr John C Warren, of Boston was given 17 years since but will suit as well forever.

Boston June 18 18..

Having had occasion to observe that some persons of limited means have suffered much from the want of a skillful workman to accommodate trusses to the peculiarities of their cases I have taken pleasure in stating that the ingenuity of Mr J F Foster has supplied the deficiency of which I complained by the want of Mr Beach—After some attempts at observation of how well Foster executed that Mr Foster was well acquainted with the most perfect arrangements and appliances according to the variety of cases which occur I feel called upon to recommend him to my profession and brethren and the public as a person well fitted to fulfill the wants in regard to these important articles.

JOHN C WARREN M D

The undersigned taking great pleasure in recommending to the favorable notice of those who are happily afflicted with Hernia Mr Joseph Foster as a skillful and ingenious mechanic in the manufacture and fitting of Trusses. We have employed him (some five or seven years) and do not recollect a single instance of his failing to give entire satisfaction. His long experience makes him an excellent surgeon and individuals who may be in want of a superior truss or a perfect fit would do well to call on him. He has for the last seventeen years been constantly employed by the Western Medical Society and many applicants have received great benefit from his skill, some of which were of a very extraordinary and distressing character.

It is not known to all who have occasion to wear a Truss that its great object is to retain in the body all the contents of the cavity. Any ordinary mechanic may make a Truss but none but a skillful practitioner can apply it so as to retain it effectually and ostensibly cure the complaint. Our experience has convinced us that Mr Foster has thoroughly attained this knowledge. The certificate of Dr J C Warren and other surgeons which he has shown to us fully sustain the opinion we here express.

Penobscot County Whig Convention.

The whigs of Penobscot by their Delegates met in convention at the City Hall in this city on Tuesday Sept 1st.

The convention was called to order by the chairman of the county committee, and Col. William H. Mills of Bangor was chosen President, and H G O Morison, Esq, of Bangor and David Norton of Oldtown, were chosen Secretaries

There were some hundred delegates in attendance and the following nominations were made

For Senators
Col. Samuel Butman of Dixmont,
Newell Blake of Oldtown,
Franklin Muzzy of Bangor,
For County Commissioner;
Daniel M. Haskell of Garland.
For County Treasurer.
Thomas A Taylor of Bangor.

On the question of nominating Senators there was some debate as to the propriety of a mixed ticket, and in order to show the objections which some had to adopting the course it was understood that the objectors should manifest their strength by a vote as to the form of nominating them, whether upon one ticket or singly A large majority of the convention were in favor of a mixed ticket as the only one which could prove successful On this becoming apparent a few of the delegates left the Hall lest they should be suspected of not being sufficiently whiggish to refuse to vote for a mixed ticket even to insure the highest success to their cause and their men

The proceedings of the convention were not interrupted, but the business was transacted harmoniously and the convention adjourned with three hearty cheers for the success of the cause and the welfare of Maine.

☞ Some few Whigs, two or three of them Delegates to the Whig County Convention,—with a few others they picked up in the city,—in the hope of getting up a bit of a sizable meeting at the City Hall yesterday afternoon and nominated a list of candidates for Senators and county officers, under the pretence that their little Caucus was the Whig Convention for the County. It is not probable that any of their candidates will accept the nominations, or that they will receive as many votes as the Whig candidates received last year from those who claim to be altogether better Whigs than the whig party We don't think there will be much of a shower, however much small thunder there may be manufactured.

HARPER'S MAGAZINE for September, 1853.

We are indebted to Messrs. Petridge & Co. the enterprising publishers and book dealers in Boston, for a copy of Harper's Magazine for September, received through their agents here Messrs. Patch & Lewis Its illustrations of Arlington House, the seat of G. W. P. Custis Esq. are numerous and interesting, and unfolds many of the precious mementoes of George Washington —A cruise after and among the Cannibals, is well illustrated, as also Scenes in the Life of Louis XIV. There is fun in the closing pages and the number is a good one.

THE ARTIST WIFE AND OTHER TALES By Mary Howitt, New York, Stringer & Townsend, 1853.

We have before us a neat volume forming one of the Library of Standard Novels in the course of publication by these enterprising publishers. This is a touching volume, showing the great skill of its accomplished author, who occupies so eminent a position as a female writer. Mary Howitt is of the first order of mind, and she writes for the highest order of intelligence. The narrative she has here wrought is charming and true to nature, giving one of the finest pictures of womanly faith and energy under adverse circumstances.

This volume may be found at Bugbee's bookstore on Kenduskeag bridge

☞ A letter from New Orleans, of the 19th, says, there are nearly two hundred orphans in the asylum, half of whom cannot give their names, and the names cannot be found out.

Fatal Accident.

On Wednesday a son of Mr John Carey of this city, about eight years of age, was in Brewer on a visit to his uncle and was instantly killed while riding upon a load of wood from which he fell, and the wheel passed over his head crushing it to atoms.

MORE LIQUORS SEIZED

On Wednesday afternoon the city Marshal seized six barrels of rum, containing forty gallons each, marked "M, in the brick dwelling house on May street This house has long been an annoyance to the neighbors on account of the traffic here carried on, and we hope now that greater vigilance on the part of the police will make the trade there in liquors unprofitable, and a losing business.

YORK COUNTY.

The York County Whig Convention was held at Alfred on the 25th ult. William M. Bryant, Esq of Kennebunk, was chosen President, and C R Lindsay, Esq Secretary

The following nominations were made

For Senators—Daniel Smith, Jr Saco, John H Goodwin, South Berwick, Nathan Dow, Alfred

County Treasurer—F Robie of Biddeford

The Washington correspondent of the Freeman's Journal, a Catholic paper published in New York, says

"The President has determined not to adopt, father or recommend the Pacific Railroad measure in any manner whatever, as a policy of the administration, and in this determination he is warmly and decidedly backed and supported by the secretary of State and the attorney general This you may rely upon as an ascertained fact"

The same writer adds that a dissolution of the Cabinet may take place on this question, and that it is not impossible that Davis and Guthrie may step out These statements are entitled to the same degree of credence as other Washington rumors

FROM AUSTRALIA By the Georgia dates from Melbourne are received of 16th of May We annex a summary of the most important commercial intelligence

"From various gold circulars we learn that in the Melbourne district the yield is satisfactory, and prices varying from 76s 9d, to 76 A party of five men accumulated during five months 12,432 ounces The total amount of gold shipped from Melbourne during the present year to May 14th was 780,121 ounces, or 32 tons, 10 cwt, 0 qrs, 10 lbs and 1 oz which at £2 17s per ounce, amounts to £2,921,455, or about $14,627,255

From Geelong the reports state the diggers to be very unsettled, moving constantly from place to place New placers are being daily discovered On the Ovens sluice washing has been successfully introduced The buying price is 76s, but is expected to fall

The *Hobart Town Circular* says that Victoria gold is in great demand, at 76s Fingal gold 72s. Freights to London 4½d per ounce

The produce and commercial markets are higher than at the period of our last advices

Melbourne Fine flour, £30 to £32 hay £40 per ton, 5s per b, potatoes, 17s to 21s per cwt, coffee scarce and prices advancing, pickles and oilmen's stores in demand, bottled beer sought for, and commands high rates, port wine inquired for, and sherry in fair request, strong boots and shoes in good demand, and moved off at high prices, blankets, hosiery and winter goods sell freely at high rates

Geelong Flour, £25 per ton, hay, £25 to £27 per ton, coals, £6 to £7 per ton

Hobart Town Flour, £p7, hay, £16, potatoes, 14s per cwt

Adelaide Flour £27, hay £6 to £5 10s, potatoes 16s. cwt

The *Argus* urges strongly the formation of a society to assist the destitute immigrants and to provide relief in many of the heart rending cases that it daily brings before public notice

By a return from the Convict Department it appears that 1731 convicts arrived in the colony from June 20th to January 31st, 1853

The correspondent of the *Geelong Advertiser*, writing from Forest Creek, says that the diggers are so pestered with mice that cats are freely quoted at 50s. a head A Mr Hitchcock guarantees £1 per head for a load of them

☞ On this subject of the acquisition of Cuba by the United States,—the New York Tribune comes to this conclusion —

"One of two courses we must manfully choose—either cease to covet and to grasp, or prepare to fight and pay. If we want colonial possessions as ample as Great Britain's, we must be able to pay taxes as gigantic as hers—to see army contractors in legions building their palaces and riding in gilded coaches, while the children of mechanics and artisans creep shivering and hungry to bed Perhaps a few unused voters are ready for this and prepared to shout at the chariot wheels of the demagogues who contrive it, but those who have passed through our common schools are surely too wise to be caught by such chaff They know that National aggrandizement and military glory imply Social squalor and misery, and they decline to throw their bodies into the trenches over which our Cushings and Jefferson Davises would rush to the goal of their unchastened ambition."

Australia.

Advices have been received from Australia to the 13th of June The whole amount of gold received at Sydney during April and May was 258,673 ounces The products of the Victoria mines continue to increase The operations of the mining companies were not as successful as anticipated men refusing to work for the companies unless the very highest rate of wages were paid Rents continued to rise at Sydney, and provisions were very high The markets were active and the trading community in a prosperous state. Money was plenty and the trade was slipping out of their line to speculate in land houses &c. Much suffering was experienced from the high rates of rent and provisions

There is some discord in the New York Custom House which threatens an open rupture.—The Secretary of the Treasury recently rejected one of Collector Bronson's appointments, that of Mr, Riley, of Long Island for day officer of the customs, who was appointed at the special request of Mr Cooley It is said that Mr Bronson coolly sent back to Mr Guthrie the re-nomination of Mr Riley and should the powers at Washington remain unmoved, Mr Bronson's resignation may be looked for at once It is also rumored that U S District Attorney, Charles O'Conner, is about to resign in disgust

These and numerous other discordant movements grow out of the strenuous but ill advised efforts of the President to harmonise the Democratic party He might as well attempt to make oil and water mingle The ring streaked and speckled element which compose the "administration party," possess no cohesion save that of the public plunder, and over that they quarrel like hungry dogs around a bone.

The Emperor of Russia has four sons, Alexander Constantine, Nicholas, and Michael, and two daughters, Maria, the widowed Duchess of Leuchtenberg, and the Grand Duchess Olga, lately married.

Resolved, That in our candidate for Governor, Hon Wm G Crosby we have an able and well tried whig statesman, whose administration was alike honorable to himself and useful to the State, a man who heartily sympathizes with the people in all those great measures of progress and reform which tend to the amelioration of the condition of mankind—and that we will use all honorable measures for his election

Resolved, That it is the duty of all good whigs, and other citizens to use all exertions to defeat the installation into power of wild cat loco focoism—and that we recommend to the whigs of this county to make such a use of the power of the ballot box as will most effectually accomplish that object

G W Ingersoll, Esq, offered the following resolution which was unanimously adopted —

THE SORROWFUL TREE At Goa, near Bombay, there is a singular vegetable—the sorrowful tree—because it only flourishes in the night At sunset no flowers are to be seen, and yet, half an hour after, it is quite full of them They yield a sweet smell, but the sun no sooner shines upon them than some of them fall off, and others close up, and thus it continues flowering in the night all the year.

NEW ROUTE TO CALIFORNIA The New Orleans Picayune has received by express over the new Ramsey route to California, advices from San Francisco to August 1 The trip across occupied twenty-five days, but Col Ramsey, in a note expresses his belief that it can be performed easily inside of sixteen days as soon as further arrangements now in progress are completed

Rev Dr Jackson, a clergyman of Vermont, in parting with a daughter who had been married, said, "I want you to remember this one thing: all you can get out of life is usefulness.

John Mee of North Amherst has invented a machine for knitting ribbed work which will knit some six dozen drawers of shirts a day.

Ex-Governor John W. Dana of Fryeburg, in this State, has been appointed Charge to Bolivia.

☞ The Portland *State of Maine* in a highly complimentary article on Mr. Jackson, the great Railroad contractor makes the following remarks touching the great railroad enterprises in which Maine is deeply interested

"We have before us a volume of State papers, published by the Imperial Parliament, by Royal command, entitled "Further Correspondence relative to the proposed Railway from Halifax to Quebec," under date of June 16, 1852 in which the correspondence between the Colonial office and Mr Jackson forms a conspicuous part. By this it appears, from a note of Mr Jackson to P Peel, Esq, under Secretary for the Colonies, that on the 5th of February, 1852, Mr Jackson, on behalf of himself and partners, offered to construct the E and N A R R in New Brunswick, on the terms intimated by the Provincial Parliament by their Facility Bills of 1851 in case the Imperial Parliament saw fit to carry out the plan of the Halifax and Quebec Railway

This correspondence with the Colonial office, led Mr Hinks and Mr Chandler to enter into negotiations with Mr Jackson for carrying out their Railway plans in Canada and New Brunswick, in the event of their failure to receive assistance from the Imperial Government

These negotiations terminated in May, 1852, by the refusal of the Imperial Government to render the necessary aid.

Mr Jackson and his partners became acquainted with the plans of the Portland Convention of 1850, through the agency of C D Archibald, Esq of Nova Scotia They at once entered fully into the scheme, for building the European and North American Railway, and in connection with that work, the Grand Trunk Railway of Canada including the bridge across the St Lawrence at Montreal

The rapidity with which these gigantic enterprises have been matured and perfected, excites a feeling of profound astonishment and admiration throughout the country and the arrival of Mr Stephenson, for the purpose of arranging the plans for the Victoria Bridge across the St. Lawrence, and a similar structure for the European and North American Railway across the River St John, in furtherance of these plans, is justly regarded as the great event in the history of American Railways

These great works are all to be carried out in subordination to one plan, so that, in connexion with an improved line of ocean steamers, the transit between the continents of Europe and America can be reduced to its lowest limit of time and expense

Mr Jackson is the man to lead in these enterprises To the clearest perceptions of the relations of business—a power of dealing with facts and data is beyond most men engaged in large undertakings—he unites a warmth of temperament and an enthusiasm for success which leaves no room for hindrances or delay In other words, William Jackson is a man of ideas and of action

In his business intercourse with Portland arranging the terms of the lease of the Atlantic and St Lawrence Railroad to the Grand Trunk Railway, Mr Jackson left an impression of true greatness upon the minds of all with whom he had any business transactions, beyond any power on our part of expressing it

Whatever merit may fairly attach to others to Mr Jackson we are indebted for that stupendous system of public improvements which is to throw an iron bridge across the greatest river of the world, thereby connecting the finest grain growing portions of this continent in one unbroken line of railway, with the earliest and most accessible port to Europe,—achieving by private enterprise and private capital, results, beyond what has yet been accomplished by any nation of the globe

If Mr Jackson can be spared to see these great results accomplished he will leave behind him upon this continent, monuments of higher value than have yet been raised by human hands"

☞ The Machias Union is congratulating the people in that town on the arrival there of the steamer Rockland, on her regular trips between Rockland and Machias

The Rockland Gazette thus speaks of this new steamer, on this new route

"The new steamer designed to ply between this port and Machias has been built purposely for the line, and is already on her regular route to the East She reached our wharf from Portland on Sunday night last On Tuesday she took a goodly number of our people to Belfast on an excursion, returning the same day On Wednesday she commenced her first regular trip east, with forty passengers, mostly from Rockland She will touch regularly at North Haven, Deer Isle, Mt Desert, Millbridge Jonesport and Machiasport—going east every Wednesday and Saturday, on the arrival of the boats from Boston, and returning by the same route every Thursday and Monday. Capt L S Blaisdell is her commander a gentleman every way qualified for the station, who has long been acquainted with the waters he is to navigate, and in whom our citizens, and all who know him, place the utmost confidence He has taken much interest in the enterprise and every one wishes him the success that he deserves, now that he has entered fully upon his duties

The boat was built by Isaac C Smith & Son, at Hoboken, and it is said in the most excellent style, both as to model and strength Her engines are from the well known works of Joseph C Coffee of New York. We are unable to give at present, their capacity She is of 195 tons register, and is very conveniently arranged, having a neat, comfortable cabin, a very pleasant and well furnished saloon, and the other usual accommodations of a boat of her size F P Lovejoy of this place has been engaged as her clerk, a gentleman who will, no doubt, give universal satisfaction He will also conduct an express business between the different places on the route At a meeting of the stockholders on Monday afternoon, Capt. A C Spaulding was appointed general agent for the boat.

We see no reason why this boat will not do a smart business in the way of taking passengers and freight to and fro The readiness with which the stock was subscribed for by men at Machias and the other intermediate places, as well as at this place, indicates at least the business men have confidence in the success of the thing The merchants and others east of us certainly can congratulate themselves on the improved facilities which are now afforded for travelling this way, and to Portland and Boston We trust that they and Rockland will be mutually benefited by the enterprise

What better idea than for all hands to get up an excursion or more than one to Machias during this fine weather? It would to many be a new and pleasant trip. Would our friends east like to see us? We would just hint to them that our 'burnt district' is not *entirely* covered with new buildings yet, and that they might find an excursion this way tolerable pleasant."

The following is from the principal accountant of the wealthy and highly respectable house of Messrs Voris & Bro, of this city and presents one of the MOST WONDERFUL CURES in the annals of medical history

Mr H G Farrell—Dear Sir Actuated by a sense of gratefulness I submit the following instance of the utility of your great medicine My child three years old was suddenly attacked with a terrible disease which in less than six hours prostrated it to total helplessness The limbs became so rigid that not a joint could be bent, the flesh turned black and it was entirely deprived of feeling the eyes fixed partially closed and together blind I thought this was deafness to all sounds the spine became contracted and so curved that when lying on its back the head and heels only touched Indeed the child presented every appearance of being dead Immediately on the attack the family physician was called in and for three weeks he labored to restore it to feeling, but all in vain although it was administered a dozen times and various rubefacient liniments applied A consultation of physicians was then held but to no purpose the case was then brought before the Medical Society but nothing could be suggested which had not already been done and the doctor then told me he could do nothing more We then commenced applying your Liniment freely over the entire length of the spine and you may imagine a parent's joy when after a few applications returning animation was apparent and it rapidly recovered with the exception of the sight which did not return perfect for near a month The child is now healthy and robust as can be Five other cases of the same kind occurred previously in my neighborhood all of which died where there is no doubt if your Liniment had been used they would have recovered

Morning and Evening.

Those who desire to obtain a thorough knowledge of the true principles of Penmanship, and a correct business-like way of executing the same are reminded that MR. SCRIBNER who has been instructing the eight or nine hundred scholars in this city within a few weeks with remarkable and gratifying success will on Monday next form new classes at his room on Harlow Street This system is natural and easy giving a clear illustration of the art and imparting a uniform graceful and distinct style of writing Therefore considering the worth of early skill in the art we say to old and young, patronize his school and our word for it you will be surprised at your improvement

"I DIGEST" Such is the true meaning of the word "PEPSIN," or of the two Greek words from which it is derived This is the significant and appropriate title of the TRUE DIGESTIVE FLUID, or GASTRIC JUICE prepared by Dr J S HOUGHTON, of Philadelphia, from the fourth Stomach of the Ox for the cure of Indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy Stomach No art of man can equal its curative powers. It renders GOOD EATING perfectly consistent with HEALTH See the figure of the Ox, in another part of this paper

The Cement which has been proved to be of great strength, will be found particularly useful in every family, the simple manner of its application is alone a recommendation The adhesive property which it contains is so wonderful that many things will rather break in a fresh place than where they have been mended with it The variety of purposes for which it may be used are so numerous that it would be difficult to recite them Its success in mending Glass, China, &c, is extraordinary, no ordinary degree of heat affecting it and as the joints are scarcely perceptible articles of this kind may be made useful for years which otherwise would have been cast away

Great Excitement!

Among Carriage Makers.

THE subscribers have purchased the right to make use and sell

Everett's Patent Coupling

for the Counties of Penobscot, Piscataquis Waldo Hancock Washington and Aroostook The advantages of the above Coupling over the old method of connecting the main part of the Carriage with the front part is such that it must come into general use when it is properly understood High forward wheels can be used and we get rid of the galling irons as the wheels do not strike the body and the carriage turns in a very small compass the hind wheels not describing more than 4 to 6 feet circle It is perfectly simple and not so liable to get out of order as the old method Those who have used the above are fully satisfied of its utility, as certificates below show It can be attached to old carriages at a small expense, and we are prepared to sell the right for shops, towns and would sell a part of the above named Counties, at such a rate that any smart man with a small capital could realize a great profit from the sale of the above Any person wishing information will receive immediate attention at our place of business, or by dropping us a line by mail post paid

Dr W Edward of the Massachusetts Insane Hospital writes of one of his patients being cured by using this cordial thus — It gives me pleasure to inform you that one of my patients while in Boston, procured some of your Cordial He tells me that [illegible] permission since he commenced taking it [illegible] two or three weeks When he [illegible] ever [illegible] his full strength [illegible] medicine used in these cases in the hospital but they had no effect In the meantime he [illegible] your Cordial which has affected a cure [illegible] other medicine would I shall ever recommend whenever an opportunity occurs"

The nature of the maladies relieved by this Cordial are generally such as to leave the [illegible] out of the question [illegible] could produce [illegible] to show that the great [illegible] identity [illegible] and apparently miraculous virtues [illegible] are to be found the happy [illegible] who would [illegible] preparation And it is equally potent for many diseases for which it is recommended

THE MEDICAL JOURNALS

have not in a single instance that has been neither lent [illegible] given the sanction to any other preparation for the above complaints It has, in many violent and desperate cases effected radical cures after patients had been abandoned and their condition pronounced hopeless by medical practitioners of high professional character

THE COMMON EXPRESSION

Of those who have used this Extract is— "I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits having tried various medicines sold for the same purpose, (different Sarsaparillas) without deriving any benefit I had almost given up all hope of obtaining relief when I purchased some of your Cordial I had no faith whatever of its benefiting me—but it has I feel stronger I have had no emissions since, although it is not three weeks I am satisfied the half a dozen bottles I took will cure me

Another says— I had consulted several distinguished physicians Some said I could not be cured others prescribed this thing and that but I found no relief until I procured some of your Cordial I must say it completely cured me

Another says— "I was surprised at the effect your Cordial had Why had I not heard of it before? It would have saved me so much expense, besides years of mental and bodily suffering

CAUTION—Ask for Dr Morse's Cordial and take no other, as there are worthless imitations which its unrivalled excellence fame and popularity, have brought into the market. It will not hurt the most delicate Female but do good Beware of all other Cordials, &c, (and try only this)

Gidding's Speeches,

PUBLISHED in a large duodecimo volume—for sale by E F DUREN

To the readers of the Whig

Will you read the Truth.

A MEDICINE must have merit and great merit too, to stand the test of public opinion No art of puffing can galvanize a worthless article so as to keep it alive as a *good medicine* if it be not really so

A good medicine will live become popular, and extend its sales year after year in spite of opposition The people readily find out its virtues and its fame passes from mouth to mouth with more rapidity than newspapers can spread it A living witness testifying to the cure that a medicine has made for him is of far more service than any newspaper advertising

In proof of what we say above, we refer you to HAMPTON'S VEGETABLE TINCTURE and its effects Its praise is in the mouths of multitudes The best men in our country give their testimony to its wonderful cures Among them the name Hon. Henry Clay Hon Richard M Johnson, Vice President of the United States with hundreds of others Capt Thomas Canot—brother to the celebrated physician of the Emperor of France—was cured by it of a disease of seven years' standing after the skill of the doctors of Europe and America had failed

In the United States Navy it is taken with great success, several officers being cured by it, officers of the Department, Washington, speak of its wonderful cures

In fact the rich and the poor, young and old, in every place, in the city and country, find the same success attends its use

HAMPTON'S VEGETABLE TINCTURE is purely vegetable and warranted free from all mineral substances This Tincture, by its mild pleasant and safe action on the stomach liver, kidneys lungs and the nervous system cures Dyspepsia Liver Complaint, Diseases of the Urinary Organs Coughs Asthma Bronchial Affections, Consumption, Scrofula King's Evil, Worms, Rheumatism Gout, Neuralgia St Vitus Dance Fits, Nervous Affections generally Fistula, Piles Bowel Complaints with all diseases arising from impure blood As a remedy to the various derangements of the female system it seems to have no superior

What we ask of the public, in introducing this valuable medicine is to throw aside their prejudices and give it a fair trial We shall publish in this paper from time to time testimony from persons whose reputation is known through all the United States, and who have been entirely cured when other medicines have failed It is no *humbug* and the public will be satisfied that what we say is TRUE after a fair trial

How the Discovery of the Vegetable Tincture was made.

DR HAMPTON now in his 77th year was early in life much reduced by disease, had spent much of his living in medical advice and grew nothing better but worse;" when finding that none of the mineral medicines could reach his case he came to himself, and thought why should I die with disease when the Creator has provided in his vegetable kingdom that which will make me whole again? I will go and search out those roots and herbs which I have seen the Indians and the early pioneers give for the cure of disease I will so compound them, so increase or decrease the quantity of each until I get such a medicine as shall cure me of my disease The doctor carried out his noble resolution, brought to his aid the experience of the RED MAN, and all others from whom any thing could be learned of the healing powers of the roots of the vegetable kingdom In a short time, as by magic, the Doctor was cured of his disease The fame thereof spread abroad, his neighbors sent far and near for this wonderful discovery, which was freely given to them, and all partook with the same success until the demand became so great that the Doctor could not in justice to himself, and without great pecuniary loss, supply the demand gratis which induced him reluctantly by the advice of his friends to put a small price on his Vegetable tincture which was cheerfully paid and considered but small indeed to the amount of good received by those who took his medicine—the most wonderful discovery in the healing art of the age

The world cannot produce Stronger Evidence

Than this kindly handed to us by J Stockbridge, Esq of the Fountain Hotel Light street, a gentleman extensively and favorably known The writer of this letter, Capt Canot is the brother of the celebrated physician to Louis Napoleon President of the French Republic Numerous of our most respectable citizens will give equally strong testimony in favor of

Hampton's Vegetable Tincture

It is a most certain cure for Dyspepsia Scrofula Liver Complaint, &c, and all diseases from an impure blood

BALTIMORE June 1 1851

Mr Stockbridge, of the Fountain Hotel, Light st Balt

Dear Sir—Being on the point of quitting the city I avail myself of a few idle moments to thank you kindly for the medicine you sent me and which has restored me to the use of my limbs I beg you to send me four bottles more to carry on my voyage Since I had the fortune to use Dr Hampton's Vegetable tincture my confidence is so strong that, in gratitude to the proprietors of the medicine I feel, you to present my respects to them and induce them to make it more publicly known as a sure Rheumatic cure Having called on me, on the 19th of April last and seen me prostrated on my bed useless in all my limbs you can appreciate nearly as well as my self the prompt relief I received from Dr Hampton's Tincture and I am positive had it not been for your strong and irresistible recommendation, I should still have been in bed

It is really a pity this specific should not be approved by medical men and like all patent drugs, it should suffer the imputation the public generally give to such preparations I myself who was always opposed to a patent specific, to the medicine with reluctance, and without confidence in it, and it was only through your disinterested cordially recommendation and my critical situation that induced me to try this really beneficial Vegetable Tincture

You may inform Messrs Mortimer & Mowbray that they are at liberty to make use of my name in the support of the good effects of Dr Hampton's Vegetable Tincture as it has cured me, in five weeks of a chronic inflammatory Rheumatism, contracted under tropical climates and of 9 years periodical duration I have only used three bottles, and find that even the deformed parts of my hands are fast returning to their former natural appearance

I have been under the treatment of several physicians in London and Paris without any apparent benefit, also, while in New York, having tried the Thompsonian and Homoeopathic remedies after having been tormented with galvanic batteries, cold and aromatic baths, and hundreds of internal and external remedies, all to no effect, I am so far, cured by this Hampton's Vegetable Tincture only Therefore, my dear sir, accept of the assurance of my gratitude, and believe me your well wisher,

Cure of Consumption, Neuralgia Pain in Side &c

BALTIMORE May 1 1852

Messrs Mortimer & Mowbray,—Gentlemen —It is with pleasure I can testify to the great healing powers of Hampton's Vegetable Tincture My wife had been afflicted for three years, laboring under a constant hacking cough, with a most violent pain in the right side neuralgia of the head, and dimness of sight, very little rest day or night, and much emaciation and to all appearances a rapid consumption inevitable We had the most eminent physician in Annapolis but his medicine did not give her any relief at all but growing worse if any change in the least, and having read one of your pamphlets, in July last she concluded to try Hampton's Vegetable Tincture and after taking but two bottles of which (under a kind Providence) we perceived a great change for the better; her appetite improved her skin became quite clear coughs, pains, neuralgia, &c, entirely left her, and by the time she had taken a few bottles more she was completely cured, and is now in the enjoyment of excellent health

This is to certify that, having been troubled for a number of years with a distressing cough and bleeding of the lungs, and receiving no benefit from medicine, I was to all appearance in the last stage of consumption. My legs swelled so that I was unable to stand or help myself At this time your Liniment was presented and recommended to me, and by the use of three or four bottles I was entirely cured and have since been able to labor every day I have also for the last twenty years been subject to severe attacks of bloody dysentery and never found any permanent relief until I took your Liniment since which I have had no return of this complaint I can truly say I think your Anodyne Liniment was the means of saving my life JOHN I ATKINS

Brewer, Sept 29 1852.

Dr Johnson Dear Sir—In consequence of having a fever sore on my leg, it became entirely stiff at the knee and it was decided by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment, and by using three bottles my leg was limbered and strengthened and for a number of years I have been able to use it about as well as the other I hold myself indebted to the use of your Liniment with the blessing of Providence, for the use of my leg and would say to others who may need help in this way, try it, and no doubt you will be cured RUFUS CHAPMAN
